

## ELECTRONIC

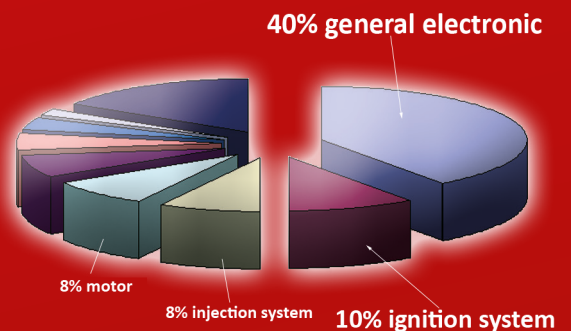

### GET IN NOW - COUNT ON GROWTH!

The high-performance offer for motor management, RPM / speed sensors, ignition and switches!

### THE GROWING MARKET

95 % of all vehicles from the actual fleet of vehicles are featured with electronic help facilities. They are lessening the burden on the driver, protecting the vehicles and beyond that decreasing the exhaust emissions. According to the statement of the automobile industry 60-80 sensors are assembled per model.

Indeed the vehicles are becoming prone to defects due to the increased number of sensors. Car breakdown statistics are showing that 40 – 50 % of all failures result from problems with electronics and ignition.

### ESSENTIAL BESTSELLER: EXCELLENT QUALITY!

Ensure this growth with Metzger car parts, the competent partner for electronic car parts. Sensors for motor management, speed / RPM sensors as well as switches and ignition coils are in our range. Thereby you are deciding yourself for a wide range of original spare parts from European car manufacturers. Supplementary to this we are providing you with further products of excellent quality assigned by the TÜV-Rheinland. In this way you will receive a perfect solution for the fast growing sensor market.

- **OE products: high rate of OE parts**
- **OE quality: certified manufacturers of the automobile industry**
- **Production: most modern technology production method**
- **TecDoc: excellent, certified product data – quality**

Our time-tested electronic program is assured through a continuous high quality standard. Top class product quality has upmost priority at Metzger. You can see an overview of our comprehensive delivery service on the back of this document.

# THE COMPLETE RANGE- ELECTRONIC TAKES PRECAUTIONS IN TIME!

**metzger**   
Autoteile

Wide and high quality product range in original equipment manufacturer quality

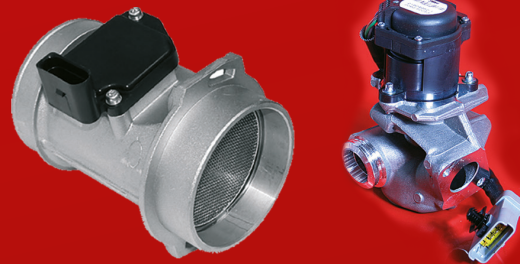

## motor management – amongst others as OE model

- air flow meters with housing
- EGR Valves with seal
- idle control valve
- sensors camshaft position and crankshaft pulse
- throttle flap
- lambda sensors
- exhaust gas temperature sensors
- pressure sensors

## RPM speed sensors – amongst others as OE model

- ABS-sensors, ABS-rings
- speed / RPM sensors
- knock sensors

## ignition – amongst others as OE model

- plug coils and pencil-type ignition coils
- block ignition coils (4- and 6- cylinder)
- ignition coils for distributor – ignition switch system
- distributor cap, rotor
- control unit – ignition switch system, ignition pulse sensors

## switches – amongst other as OE model

- steering column switches, switches hazard light
- sensors for the coolant circuit
- oil pressure, oil level and oil temperature switches
- brake light switches, switches reverse light
- interior blower
- resistor interior blower
- control element parking brake
